Cinnamon

HS Code 090700

Cinnamon is a spice derived from the inner bark of trees belonging to the genus *Cinnamomum*. It's commonly used in both sweet and savory dishes around the world. There are two main types of cinnamon: Ceylon, or “true” cinnamon, which has a delicate flavor, and Cassia, which is more common and has a stronger, spicier flavor.

Beyond its culinary uses, cinnamon has been valued for its potential health benefits, such as anti-inflammatory and antioxidant properties.
